i love how most of the reviews are idiots who dont know what this season pass was, so this is the first 4 major dlcs and the level increase, that released after the game launch, it was available to preorder before game launch, which was released in 18V10V2012, the GOTY released 1 year later with all the current dlcs at the time, the 4 major dlcs, the level increase, the 2 new characters, creature slaughter dome, and the little extra collectors edition pack, it still didnt include the ultimate upgrade 2, and after the release of the GOTY, season 2 of dlc commenced, which was for the 5 smaller headhunter dlcs. then the handsome collection, was released 24V4V2015, so 2.5 years after initial release, including every dlcs for both pre sequel and 2.

TLDR: The season pass = the first year of dlcs. What a scam this is... Not even close to 50% DLC, what's the point of a season pass?. Tiny Tina's campaign is worth the price of admission alone.

Also, I think the recent 2K fortnite_stote exclusivity bs has shown the true face of 2K greed. Charging 20 bucks for a season pass of good content is nothing compared to that.. Nice anti-consumerism. Do not buy this. Do not support 2k.
